

A Simple and Affordable Voice Service for Small Business

If you are buying Microsoft Response Point for its simplicity, affordability, and unique capabilities, you need a phone service that delivers the same promise. NGT's Digital Voice is a natural add-on to Response Point. It connects your Response Point to the outside world, thus providing local and long-distance calling often at 20%-40% savings compared to your current phone service. Additionally, NGT's Digital Voice goes beyond the basics to create a complete voice solution for your small business.

Affordable

With NGT Digital Voice, you can reduce your combined data and phone costs by up to 20-40%.

Break Free From the Local Phone Company

NGT Digital Voice Pricing*

Term	One - Time Charge Per Line	Monthly Charge Per Line
1 Year	\$35.00	\$27.95
2 Year	\$35.00	\$24.95
3 Year	\$35.00	\$22.95

*Minimum of three NGT Digital Voice lines per customer

Each NGT Digital Voice line includes:

- Unlimited local and on-net Calling
- Emergency Service (911)
- Directory listing
- Caller ID and Caller Name (CNAM)
- Call Waiting

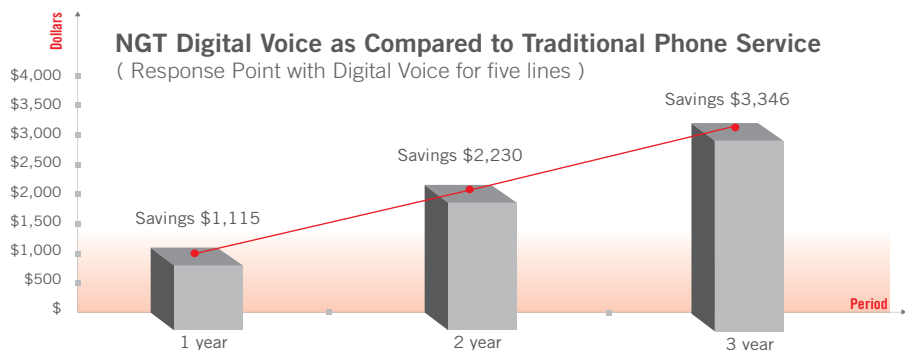

Long Distance Pricing

Domestic long distance is provided at the low rate of 3.9 cents per minute. Customers also have the option of purchasing 500-minute bundles of long distance for \$10.00. These bundles include both domestic and international calling to major dialing codes in more than 30 countries and are purchased per site, not per line.*

Optional Items

Item	One-Time Charge	Monthly Charge	Usage Charge
Desktop Fax 15 pages/month	\$10.00	\$4.95	\$.20 for each additional page
Desktop Fax 350 pages/month	\$10.00	\$9.95	\$.15 for each additional page
Desktop Fax 1500 pages/month	\$10.00	\$49.95	\$.10 for each additional page
Audio Conferencing	N/A	N/A	\$.10/minute

Simple

| Built for Microsoft Response Point

NGT Digital Voice is built from the ground up for Response Point and small businesses. As the first certified Response Point Service Provider, our service has been pretested and preapproved by Microsoft so you can be assured the highest-quality solution available. And it works nationwide with any Response Point phone and broadband internet service (although, upgrades may be needed to ensure voice optimization).

With NGT Digital Voice, you can:

- Take advantage of simple pricing which includes unlimited local inbound calling and flexible long distance packages
- Keep your existing Internet service provider – works with DSL, Cable, or T1s (Your Digital Voice Authorized Partner will work with you to help assess your network requirements)
- Seamlessly replace your existing phone service, and keep your same phone numbers or order new ones
- Pay for what you need – unlike PRIs that can only sell in bundles of 23 lines
- Count on high-quality, reliable phone service

Do More

| More than just Phone Service

NGT Digital Voice is a feature-rich, cost-effective service that goes beyond basic dial tone. It supports all the advanced telephony features provided by Microsoft Response Point and includes additional capabilities, such as integrated Audio and Web Conferencing, as well as Desktop Fax.

Additional Capabilities:

- Desktop Fax service allows you to send and receive faxes from your workstations. Order one account for the company (faxes sent to email distribution group) or order one for each person for ultimate privacy
- Audio and Web Conferencing are on demand (no reservations required - no monthly fees - only pay for what you use!) and simple to use.
- Toll-Free Numbers – keep your existing toll-free number or get a new vanity toll-free number.

NGT Digital Voice and
Microsoft Response Point =
Complete Communications
